"Joy and peace," the angels sang. "Peace on earth, to men good will!"
Hark! the angels sing it still,
On the Christmas morning. For a little babe that day,

Christ, the Lord of angels, lay, Born on earth our Lord to be, This the wondering angels see On the Christmas morning. Let us sing the angel's song, And the pleasant counds prolong, This fair babe of Bethlehem Children loves and blesses them On this Christman evening.

HYMN. Hark! what mean those holy voices, Sweetly sounding through the skies, Lo! th' angelic host rejoices, Heav'nly hallelujahs rise.

Listen to the wondrous story, Which they chant in hymns of loy: Glory in the highest, glory! Glory be to God most high! 'Peace on earth, good will from heav'n

THE UNION PACIFIC RAILEOAD COMPANY OFFER A LIMITED AMOUNT OF THEIR FIRST MORTGAGE BONDS AT PAR.

Nine Mandred and Sixty Miles Of the line West from Omnha are now com pleted, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Rail companies are pushing forward the work with great energy, employing over 30,000 refts, there can be no doubt that the whole

Grand Line to the Pacific WILL BE OPEN FOR BUSINESS IN THE SUMMER OF 1869. The regular Government Commissioners have pronounced the Union Pacific Railroad have pronounced the to be FIRST CLASS in

to be river to another the present and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACTFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and persoverance with which the work has been urged forward, and the raudity with which it has been excepted. the rapidity with which it has been executed are without parallel in history, and in gran-deur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those inhave been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company-now have in use 137 locomotives and nearly 2,000 cars of all descriptions. A largo additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 in lies in advance of the weater end of the track. Fully have been avoided without materially retard vance of the western end of the track. Fully 20 miles of iron for new track are now delivered west of the Missouri River, and 90 miles

read west of the Missouri River, and 80 miles more are en route. The total expenditures for construction purposes in advance of the somipleted portion of the road is not less than eight million dollars. Besides a donation from the Govt, of 12,800 acres of land per mile, the Company is estimated to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about \$29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already received \$22,153,800 of this subsidy, of which \$1,20,000 was paid Dec. 6th, and \$400,000 bee, lith. Government Add--focusity of the Bonds. By the charter, the Company be permitted to

gage upon the whole road and all its equip ments. Such a mertgage upon what, for a long time, will be the only railroad connect ing the Atlantic and Pacific States, takes the highest rank as a safe security. The carnings from the way or local business for the year ending June 20, 188, on an average of 42 miles, were over POUR MILLION BOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been \$2,382,570. They would have been greater if the road had not been taxed to its utmost capacity to transport list own materials for construction. The income from the great passenger travel, the ms from the great passenger travel, the ima freight, and the supplies for the new terest. It must remain for thirty years—size per cent per caname in gold, now equal to between eight and nine per cent. in currency. The principal is then payable in gold. It is bond with such guarantees were issued by the Government, its market price would got be bean than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must shimmately approach Government prices.
